And What Have You

By BOB CRAIG

If you were unable to be in Odessa last Friday for the Regional Track meet, you missed quite a show. It is not often that a school can so completely dominate a regional meet the way Hamlin did this one.

Winning the meet with 94 points was impressive, but not nearly so impressive as winning seven out of 14 first places with the best of eight districts taking part.

But along with all of the joy of winning, there was still the sadness of defeat too as David Willis hit a streak of bad luck and failed to qualify in the high hurdles. The heart of every track fan there ached for the young Piper trackster as he went off the track in tears.

This was the one race that everyone felt was already his and it was quite a shock to realize that, at least in that event, it was all over for this year.

But the true nature of this outstanding individual and athlete came out as he came back later to run the best intermediate hurdle race of his career. And fortunately, he is only a junior and will have another shot at the state title next year.

Someone else who had to taste the bitter pains of disappointment, was Art Lawler, The Abilene Reporter-News sportswriter who covered the meet. Lawler almost became a part of the coaching staff at Odessa and wrote a real great story about the meet only to have a wrong first name crop up in the story. His story referred to Bill Willis instead of David Willis.

This is one of the problems of newspapering—sometimes you just don't have time to check and double check your story. I don't know if Lawler wrote the name wrong or if it got messed up between his writing the story and it getting printed, but I know that there wasn't anyone any more disappointed when the paper came out Saturday morning than he was.

No one could ask for any better coverage than Lawler and the Reporter-News have given Hamlin and this bunch of kids. Just hope that they have another big story to write after the state meet.

I have felt for a long time that politically speaking, labor bosses and farmers make strange bedfellows and this is becoming obvious now that the price of beef is so much in the headlines.

Troy Martin, publisher of The Canyon News, comments on labor's attack on farm prices with the following column:

Labor bosses, the real culprits in inflation, are taking out their anger on the farmer who hasn't had a fair

CLEAN UP STARTS APR. 23—

City Council Adopts Two 'Clean Up' Ordinances

The Hamlin City Council adopted two "Clean-up" Ordinances at its regular monthly meeting here Monday evening. These were the first two of three ordinances planned by the city to enforce the city-wide clean up campaign being sponsored by the Hamlin Board of Community Development.

Mayor Joe E. Ford also proclaimed April 23 through May 5 as annual clean-up weeks in Hamlin.

One of the two ordinances passed Monday is entitled "Junked or Abandoned Vehicles" and the other ordinance regulates the height of grass, weeds or uncultivated plants permitted to grow on private property and prohibits unsanitary or hazardous conditions on private property.

The third ordinance that the council is still working on through the City Attorney is for the control of abandoned buildings.

Under terms of the Junked or Abandoned Vehicles ordinance, a junked vehicle is defined as, "Any motor vehicle which does not have lawfully affixed

thereto both a current, valid Texas license plate, or plates, and a current, valid Texas Department of Public Safety Motor Vehicle Inspection Certificate, and which is, also, either wrecked, partially or wholly dismantled, inoperative, or not equipped with tires affixed to all wheels."

An Abandoned Vehicle is defined as, "Any unattended motor vehicle left continuously standing, placed or parked on any public premises, or any public street, alley or way, or on any private property of another, without consent of the owner of such private property, for a period in excess of 15 days."

The ordinance empowers the city to impound any such vehicles or require that they be removed by the owner.

Under the weed control ordinance it is unlawful for weeds or grass to be permitted to grow higher than 12 inches on any lot or block of land within the city that is less than two acres in size or less than a city block. On land larger than a city block the grass and weeds must be controlled within 100 feet of a

public street or next to an occupied lot.

It is also unlawful for a land owner to permit holes or low areas on such lots where water or unsanitary or hazardous matter might collect or accumulate. It is also against this law for stagnant water or any garbage, trash or other unsanitary matter to remain on any lot within the city limits.

Both ordinances provide for 10-day notices to the owners of such property or vehicles.

Under the weed control ordinance, the City, after notice and the expiration of the specified period of time to correct the violation, may enter upon the lot, tract, or parcel of land or portion thereof, and do such work as is necessary to correct the violation. All expenses incurred in doing such work will be charged against the owner of the property.

Both ordinances provide for up to a \$100 fine for each day's violation of the ordinances.

School will be dismissed at 3 p.m. today (Thursday) for the Easter holidays.

SIX TO STATE—

Pipers Capture AA Regional Track Title

The Pied Pipers brought home the Regional Class AA Track trophy from Odessa Friday as they swept to a 94 point victory and qualified six in seven events at the State Track Meet to be held in Austin May 4.

Setting new records has been the rule rather than the exception for the highly talented Pipers and the Regional meet was no exception as they laid claim to three more records while running at Odessa.

The first new record came on Thursday in the prelims when their sprint relay team of Albert McAfee, Johnny Jones, Alfred McAfee and Bill Cork was clocked at 42.5. This bettered the old record of 42.9 set by Stamford in 1971.

Bill Cork and David Willis each picked up the title to new records in the finals Friday as Cork breezed to 48.0 in the 440 and Willis was clocked at 38.6 in the intermediate hurdles. The 440 record was one of the oldest! on the books as it was set in 1966 at 48.6.

Cork was high individual for the Class AA Regional as he picked up 30 points with his 6'4" jump in the high jump, his first place in the 440 and his anchor leg in both the 440 and mile relays. He was followed by Johnny Jones with 25 points for his wins in the 100 and 220 yard dashes and his leg of the 440 relay.

Running in the prelims on Thursday, the Pipers qualified all of their Regional qualifiers into the finals with runners in eight of the nine events. Only the mile run did not have a green and white Piper competing in it.

Opening up with the 440 yard relay, the Pipers defeated a strong Ozona team with a time

of 42.5. Ozona was clocked in second with a time of 42.8. A bad hand off put the race in doubt for the Pipers until Cork took over on the final leg.

The Pipers failed to place in the next race with Willie Hooper making it into the finals with a time of 2:02.5 but then came in seventh in the finals.

Moving to the high hurdles next the Pipers were jolted with their first big disappointment as David Willis got off to a bad start and finished fourth in his featured race. He had qualified with a 14.8 in the prelims and was the heavy favorite to win the race.

Johnny Jones put the Pipers back on the winning track in the next event as he was clocked at 9.7 in the 100 for first place. Cork then added 10 more points to the Piper totals as he set his new record in the 440.

Willis overcame his disappointment in the earlier race and came back to win the 330 intermediate hurdles with a record time of 38.6. Running against a strong wind Johnny Jones gained another 10 points for his team as he ran an easy 22.2 in the 220 yard dash. This 10 points put the Pipers out in front

in team points for the first time during the meet as Tahoka came out of the field events with a huge lead.

The Pipers wrapped up the meet in the final event as their mile relay team picked up the first place trophy with a time of 3:21.6. Milton Jones lead off with a 50.5, followed by Willis with a 51.4, and then Alfred McAfee with a 50.8. Going into the final leg it was a close race between Ozona and Hamlin but then Cork took over and moved into a commanding 15-yard lead and coasted in for the championship.

Tahoka took second place in the meet with 79 points and Ozona third with 57.

Coach Bill Grissom will take his state qualifiers to Lubbock this week in preparation for the state meet in Austin May 4. The high jump is set for 2 p.m. at the Coronado track and the running events get underway at 2:30 Saturday.

The Pipers will compete in seven events, including the 100, 220, 440, 330 hurdles, both relays and the high jump. Qualifiers are Cork, Willis, Johnny Jones, Milton Jones and Alfred and Albert McAfee.

Two In Serious Condition Following Wreck Saturday

Judy Contreras, 19, and her brother, Andy, 15, remain in the intensive care unit of Hendricks Memorial Hospital after receiving serious injuries in a two-car collision here Saturday at 6:48 p.m. Parents of the two are Mr. and Mrs. Trine Contreras.

Miss Contreras, a high school senior, is being treated for a broken collar bone, broken cheek, and a ruptured ear drum. She also suffered bruises. Her mother said Tuesday evening that surgery will have to be performed when swelling is reduced.

Andy suffered a collapsed lung, three fractured ribs, multiple cuts on the face and bruises. The family expects him to be taken from intensive care today (Thursday).

Miss Contreras, driver of a 1965 Ford Mustang, was traveling north on South Central when she attempted a left turn to the McCaulley Highway and

the car was hit in the right side by a 1970 Chevrolet Chevelle driven by James Aubrey Spalding, 16.

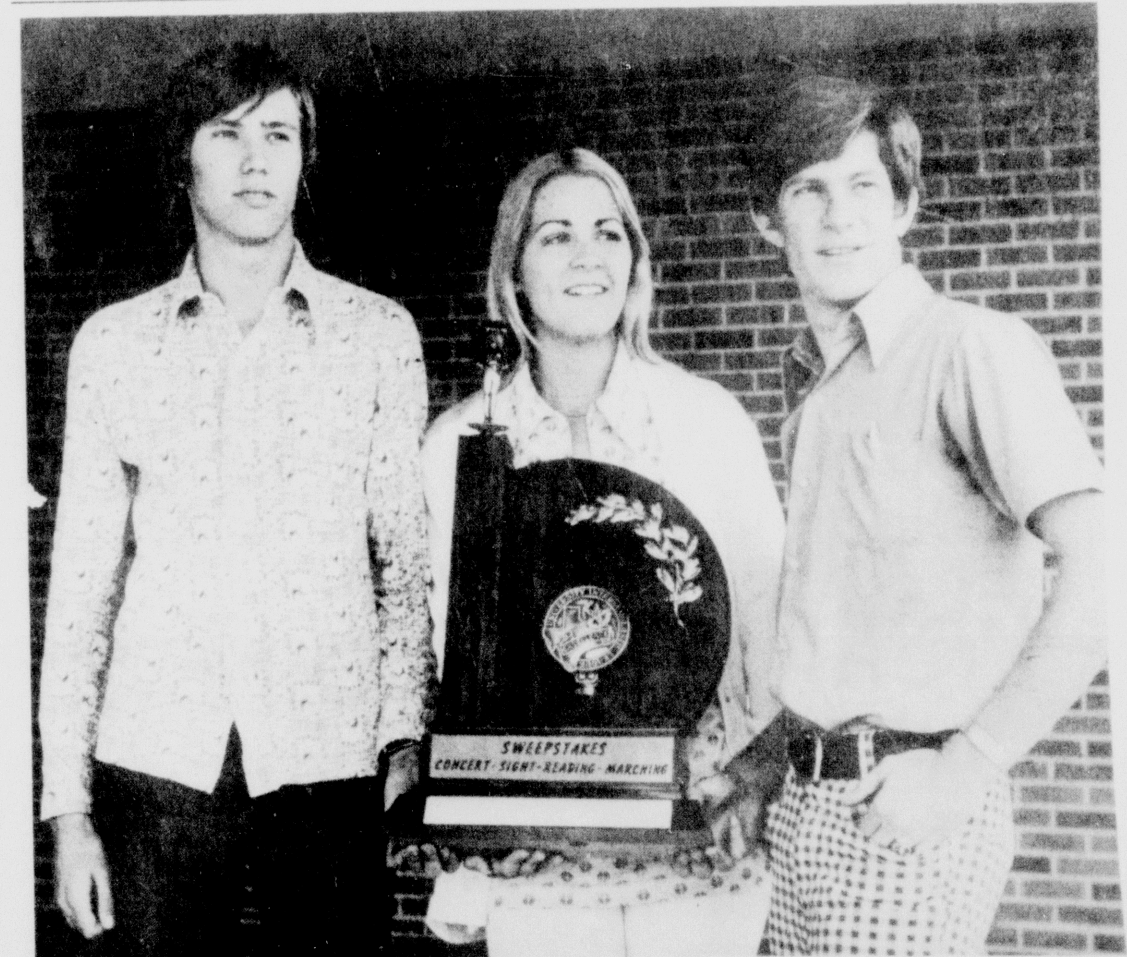

Andy was still in the car when help arrived at the scene but his sister was thrown from the vehicle to the pavement.

Other occupants of the Spalding vehicle were his brothers, Joe, 15, and Ted, 14. The three were taken to Hamlin Hospital for examination and were released.

Andy and Judy were taken to Hamlin Hospital and then on to Hendricks.

Traffic was routed around the accident scene for nearly an hour, according to Police Chief Ed Wheat. The accident is being investigated by the local department. Officer Richard Mullins was first on the scene.

Chief Wheat said the Spalding car was traveling south on South Central at a high rate of speed. Both cars were damaged extensively in the impact.

NEWEST SWEEPSTAKES TROPHY — From left, Hamlin High School band officers, David Thompson, vice president, Velanne Rowland, historian and Terry Lawlis, president, show the newest Sweepstakes trophy won by the Pied Piper band in University Interscholastic League competition last Tuesday in Abilene.

Piper Band Captures Fifth Sweepstakes In UIL Meet

The Pied Piper high school band, under the direction of Tim Jones, received six first divisions from all six judges and attained superior ratings in concert playing and sight-reading last Tuesday at Abilene's Cooper High School. A division I was won last fall in marching competition. The first division rating in all three categories gave the Piper

musicians their fifth consecutive Sweepstakes award in UIL competition. This made the ninth time in the last 14 years for the band to receive the coveted Sweepstakes award. In 42 league outings, the Piper bandmen have received 35 superior awards.

The band will be presenting the 14th annual "Parade of Music" Thursday, May 3, at

7:30 p.m. and the high school musicians will play their contest music for the public. Originally set for May 4, the concert was changed to prevent conflict with the state track meet in Austin.

Selections from "Fiddler on the Roof" and "Sounds of Simon and Garfunkel" will be included on the high school band program.

Bobby Crowley Attends PO Conference

Bobby Crowley, Hamlin Postmaster, was one of seven group leaders selected for a two-day Service Improvement Conference held in Amarillo this past week. The meeting was for all postmasters of offices with city delivery in the Amarillo District.

The two-day conference was held Wednesday and Thursday with the group leaders attending a group leader seminar on Tuesday.

The purpose of the conference was to identify and report on service improvements since February and to discuss methods and plans for future improvements.

Meetings like the one held in Amarillo were held in all 17 district headquarters in the Southern Region, with more than 1,500 postmasters participating.

The 75 postmasters attending the Amarillo conference heard District Manager Joe Jackson call for their suggestions and ideas for improving service and strengthening the efficiency of Postal Service operations. "We want to know how you think the job can be done better," he said.

He told the postmasters that, "The emphasis is switching to service, with other considerations, including budget, taking a back seat."

"I am impressed that this is the first time postal management has actually gone to its field managers for suggestions on how to improve service; this is good, basic business and we are pleased," he added.

was wiped out.

When I hear Meany, Muskie and other national leaders laying into the farmer I get mad.

Roll back prices? Fine, as long as we keep them in parity with wages, cost of machinery and other things the farmer uses.

Wipe out subsidies? Great, but let's be content and scuttle collective bargaining, minimum wage and protective tariffs.

Instead of boycotting meat, the United States had better become expert in the care and feeding of farmers because the farmer is the only hope this country has in the war in which we are now engaged.

We are locked in a battle to keep the dollar afloat and the best weapon the Administration has is farm products. Agriculture is a field in which we still excel.

We had better see that the American farmer gets his fair share or before long we may not be able to buy a steak at any price.

The fulfillment of God's word...

In the Old Testament Our Lord's birth, death, and also His resurrection were foretold. These events were proclaimed and written about long before Jesus came to earth. God saw that these prophecies were fulfilled — that these things were accomplished. Hosea 6:2 prophecies Christ rising from the dead. The scriptures say that Jesus is now alive, that He sits on the right hand of God and intercedes for us, and that as He rose from the grave, we, who are in Christ, will rise also. On this commemorating Easter let us all be in God's house to rejoice in this promise.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.
